Built Around Hospitality

Great hospitality experiences start with the right technology.

For nearly five decades, MAJAR has been helping hotels across Greece, Cyprus and Southeast Europe create better hospitality environments through a carefully selected portfolio of leading international brands.

Central Management

Minibars & In-Room Refrigeration

The right cooling technology for every hotel environment.

TWO COOLING TECHNOLOGIES

Different hospitality environments require different cooling technologies. Choose the solution that best fits your project's operational needs.

ECOSMART COMPRESSOR

- Maximum performance
- Fast cooling
- Low energy consumption

THERMOELECTRIC

- Silent operation
- No vibration
- Compact design

ECOSMART TECHNOLOGY

Three intelligent modes for greater energy efficiency.

TIMER MODE

Schedules compressor operation for at least 6 hours every 24 hours.

SMART MODE

Automatically adjusts operation based on room occupancy.

ECO MODE

Activates after 24 hours of vacancy, saving up to 30% energy.
